DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 1 recites the limitation "the locking leg portion" in lines 9-11. There is insufficient antecedent basis for this limitation in the claim.

Claim Rejections - 35 USC § 102

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 1-3, 5-7, 9-14 are rejected under 35 U.S.C. 102(b) as being anticipated by Moufarrege- 5,591,206.

As to claims 1-2, and 6-10, Moufarrege- 5,591,206 (Fig. 1-7; col. 7, lines 8-11) discloses a approximating device comprising 1st fastener male portion 24 of a poly-glycolic acid polymer (having locking leg portion 44 with projections between recesses 58 as a fixing element and anchoring leg portion 56), 2nd fastener female portion 22 of a poly-glycolic acid polymer (having locking leg portion 26 with projections 40 as a fixing element and anchoring leg portion 38), 1st member 74 engaging 1st fastener male portion 24 and 2nd member 74 engaging 2nd fastener female portion 22 (Fig. 4-5) substantially as recited n the claims.

As to claims 3 and 13, anchoring legs 56 and 38 of 1st and 2nd fastener portions includes sharp tips (Fgi. 2).

Art Unit: 3773

As to claim 11, Moufarrege- 5,591,206 (Fig. 6-7; col. 5, lines 54-56) discloses 1st member 74 of a hook shape (parabolic shape) served as an anvil to engage lip portion (the portion where locking leg portion 44 meets anchoring leg portion 56 as shown in Fig. 2) of 1st male portion.

As to claim 12, Moufarrege- 5,591,206 (Fig. 6-7; col. 5, lines 54-56) discloses 2nd member 74 of a cylindrical shape having a recess/lumen to engage lip portion (the portion where locking leg portion 38 meets anchoring leg portion 26) of 2nd female portion (Fig. 1-2).

Claim Rejections - 35 USC § 103

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claim 8 is rejected under 35 U.S.C. 103(a) as being unpatentable over Moufarrege- 5,591,206 in view of Hogendijk et al- 6,051,007.

As to claim 8, Moufarrege- 5,591,206 discloses a approximating device substantially as recited in the claim, except for two pairs of walls forming a rectangular locking passage. However, Hogendijk-'007 (Fig. 1) discloses rectangular locking passage 25. In view of Hogendijk-'007, it would have been obvious to one of ordinary skill in the art to make a Moufarrege- 5,591,206 approximating device having a rectangular locking passage as recited in the claim as this configuration is also another suitable design for Moufarrege- 5,591,206 device.

Art Unit: 3773

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
